

ART CHALLENGE

This activity is possibly the ultimate team building activity. It is about getting individuals, teams and even entire organisations to work together effectively towards one common goal – in this case the creation of a giant masterpiece painting – often by a well known artist (Picasso, Leger, Kandinsky) or it could be a uniquely bespoke image that we create for you that is relevant to your company or event theme.

DURATION:
3-4 hours

THEMES:
Collaboration, planning, teamwork, effective communication, leadership, resource management, problem solving, fun

ENVIRONMENT:
Indoor, outdoor

FUNCTION:
Team Building

Delegates have no idea what they are painting until it is revealed at the end and the process is cleverly designed so that despite everyone's best intentions they will start off competing and end up organically working together as one unified team.

The end results are always truly awe inspiring and the final piece can be hung at the office or place of work - serving as a permanent icon to powerful and effective teamwork.
