

# MAGIC CHALLENGE

The Magic Challenge is a unique, intelligent, fun and brilliant teambuilding experience.

Working with leading magicians, teams get to see and experience close up magic first hand whilst having a lot of fun.

Magic is engaging, it makes people laugh and is a perfect way to get people working together.

We will break all the rules and teach you how to perform magic and wow your friends and colleagues.

As a team activity it can easily be combined with drinks as a pre-dinner activity and it also works well for networking events

Teams will learn to do magic, to present magic and to have fun working with their colleagues.

You will also see some breath-taking magic first hand from true professionals.
