Communication, leadership,  
planning, teamwork, discovery,  
problem solving, fun

**ENVIRONMENT:**  
Outdoors

**FUNCTION:**  
Team building, shared  
experience, discovering new  
places,

# THE BICYCLE CHALLENGE

Treasure hunts are enormous fun and for many treasure hunts on bikes are even better. There's absolutely NO fitness requirement. Enjoyment, teamwork and safety are the only priorities.

Riding a bike allows you and your team to explore and experience an area fast yet in a way that allows you to appreciate your surroundings. There's a huge sense of achievement having completed this challenge and to win your team will need to be creative, cunning and competitive.

Delegates are divided into teams and each person is given cycling gear (hi-vis, helmets, bikes) and a pack with a map, manual and camera. Teams plan their routes and photograph specific locations along the route. All teams finish at a pre-agreed final locations where we tally the points and announce the winners.
